Congratulations on choosing Web Jump for your web hosting needs

Please complete the new customer contact form below to set up a new account with WebJump

The following information is considered confidential and is used solely by Web Jump Technical Support and Customer Service - with the following exception if you are registering a domain e.g www.mysite.com, then this information is sent to interNIC for billing contact information. You must enter a company name to register a domain name. If you are not operating a company with a DBA (Doing Business As) name, you can simply enter a ONE WORD name for your website.

Important! While filling out this form, please enter your e-mail address correctly because your password will be sent back to you via e-mail. Also, use NUMBERS ONLY in the phone and fax fields. No special characters such as commas, periods, parenthesis, dashes or spaces or your registration won't go through.

In four simple steps you can customize your web site's name. A site's name is composed of a top level domain (e.g. .com) and four levels of sub-domain names. Each step in the process modifies one of the optional sub-domains. You can experiment as much as you like before pressing the Submit button.

STEP 1: Use the pull down list to choose from the list of available domains.

 .com**52**

STEP 2: edit the text in this field to change the site name you entered on the previous page. Click outside the editing box to view the updated change. Use letters and numbers only. No spaces or special characters allowed. DO NOT USE PERIODS. (click outside the field to see the results).

Site Name **54**

STEP 3: (OPTIONAL) Further specify your site name by adding a professional (e.g. dentist.jumphealth.com) or interest area (e.g. mustang.jumpauto.com). Select the None button to remove entry.

Professional**56****Interest****None**

STEP 4: (OPTIONAL) Would you like your web site classified by your location? Select the state or country button. Select the None button to remove an entry

 None **State** **Country****Proposed Name****58**

Once the web site name above is to your liking, simply press submit to see if it is available!
